Bader Braves Sailability
SAILING DAY

Tuesday 24th July 2018

Wecome to Tideways Sailability Surrey Docks

Watersports Centre, Greenland Dock, Rope Street, London SE16 7SX*

- Morning arrival 10.00-10.30am for briefing and safety, and boats ready for 11.00-11.30am
- Packed lunch at 1.00pm
- Afternoon session 2.00-4.30pm
- We will prioritise the BADER BRAVE's but you will all have a go!
- You can quickly pick up the basics in our easy to sail accessible dinghies, they are stable and forgiving. The Dock provides a sheltered environment in which to learn
- One of our experienced volunteers will accompany you, while you steer and adjust the sails. Soon you will have learnt enough to sail on your own or to crew on the Hawk day boats
- Our fleet also include dinghies which have been designed for people with limited mobility to sail using an electric servo assist system operated by either a wheelchair style joystick controller. The servo system operates the ropes and rudder but the sailor reads the wind direction, sets the sails and carries out the same manoeuvres as for any sailing boat. Access dinghies ensure sailors can experience true independence
- On the day, the best clothes are trainers and casual wear. Please do remember that it is colder out on water; do bring an anorak, a hat and gloves
- You will be kitted out with a lifejacket and, should it be necessary, we can also offer the use of some waterproofs.
- There are also indoor facilities within the complex
